*At Palestine Regional Medical Center, our goal is to deliver the highest quality healthcare available in Anderson and surrounding counties as we seek to make our community healthier.*

—Richard Grogan  
Interim CEO

## At **Palestine Regional Medical Center,**

we spent 2016 exploring ways to advance our mission of making the communities of Anderson and surrounding counties healthier. And by focusing our efforts on creating a place where people choose to come for healthcare, physicians want to practice and employees want to work, our more than 60-year legacy of caring for our communities is stronger than ever.

**Inviting the best physicians into our communities and supporting them** is one of the most important drivers of our ability to offer the best possible healthcare to our community. During the past year, Palestine Regional added **42 new physicians** in nephrology, psychiatry, gastroenterology, wound care and hyperbaric medicine, orthopedic surgery, emergency medicine, sleep medicine, neurosurgery, obstetrics and gynecology, telemedicine and more.

And while **delivering high quality patient care close to home** is the single most important contribution we make, there are many other ways we're making a positive impact in our communities.

**In creating excellent workplaces for our 525 employees,** we made **\$4,268,825 in capital improvements** in 2016, and we managed and distributed an **annual payroll of \$35,798,388.**

We are proud to take a **leadership role in our communities** and are committed to delivering needed healthcare to everyone, regardless of their ability to pay. In fact, in 2016 we donated **more than \$4.3 million in healthcare services to those in need.**

We are also committed to **ensuring fiscal responsibility** – both at the hospital and in the community. In 2016, we paid a total of **\$1,479,648 in taxes,** as well as provided numerous sponsorships and donations to local organizations.
